Introduction.

Thank you for purchasing music/sound from **www.beatsuite.com**. We aim to supply you with the highest quality music and sound files so that you can sound good in whichever project you undertake. We appreciate your custom and welcome any suggestions that you may have to help improve our products or service.

License.

Music/Sound is licensed (not sold) to you for use in audio/visual productions under a license granted to The Beat Suite from the composer of the music. You may edit, arrange, transfer this music but in no way distribute it as your own.

All of our music/sound is purchased on a royalty free license. This entitles you to use the music/sound as often as you like. In short it can be used again and again. However any **mass production** of our music/sound onto any format including mass email, websites templates, audio cd, cd-rom, dvd or video requires a mass production license. Any use of our music for broadcast requires a **broadcast license** and the submission of a Cue Sheet outlining any music use. For more information please consult our **license terms** or **contact us**.

Any illegal use of our music will lead to legal action being taken against individual, business or otherwise.

Cue Sheets.

If you intend to use our music/sound for any broadcast purposes such as TV, Radio or Film then you must complete a Cue Sheet to notify the relevant Performing Right Society. Simply visit the link below, fill out the form and we will do the rest! This will not result in any extra charge to you other than what you would ordinarily have to pay.

Cue Sheets can be completed here
http://www.beatsuite.com/cue_sheet.html

Format.

All Music files are supplied as .wav (44Khz 16-bit Stereo) or broadcast quality mp3 files (320K 44.1Khz Stereo) downloadable as a .zip file.

Questions.

If you have any further questions then please consult our FAQ's page for more information.
